## **New Student Survey**

AUTUMN 2022

## **UW Tacoma - New Student Survey**

### **Autumn 2022 New Student Survey**

## **Methodology**

This survey of incoming students was conducted as part of New Student Orientation. It was presented as an assignment in their Transition 101 (new first year students) or Transition 201 (new transfer students) Canvas courses.

## **What is the purpose of this report?**

This report is intended to give UW Tacoma academic and student support units information about our incoming student population so that they can better design programs to meet student needs.

## **What is in this report?**

The figures in this report are descriptive statistics that outline student responses to questions in the New Student Survey.

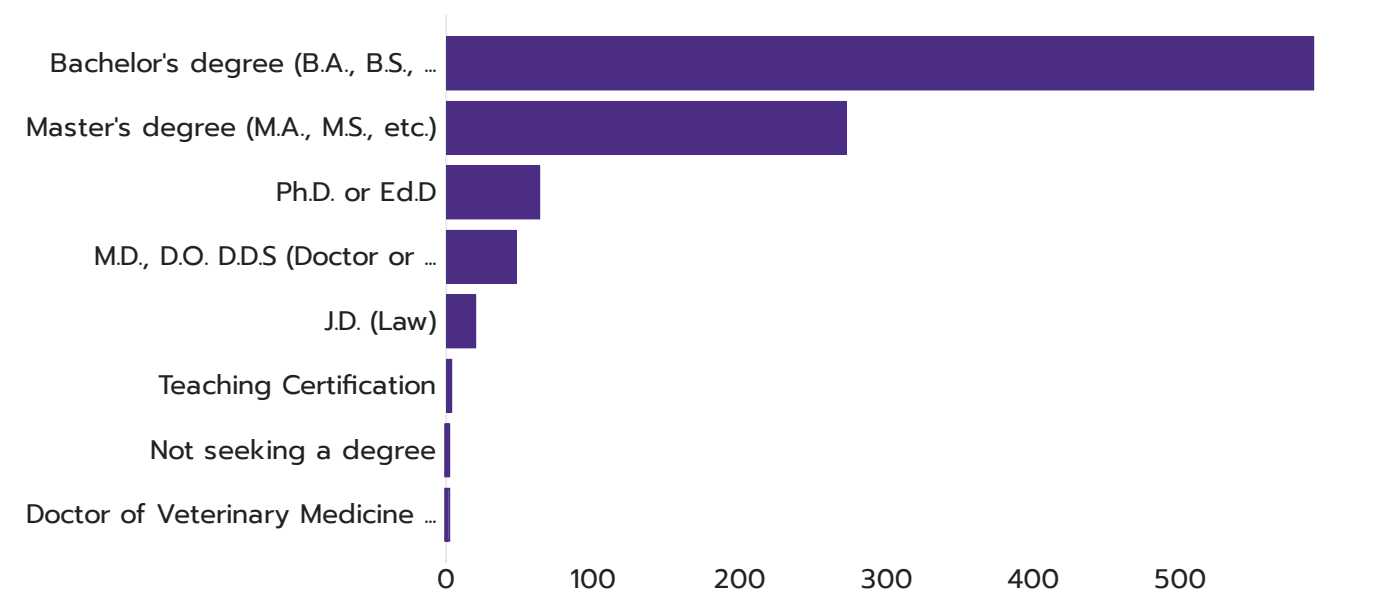

## **How was the survey developed?**

A group comprised of representatives from Student Transitions & Success and Institutional Research developed these questions from previous surveys, but added questions that we believed would help units improve student services. We examined each questions for how the answer could help in that desire to improve student experience at UW Tacoma.

## **Survey Responses**

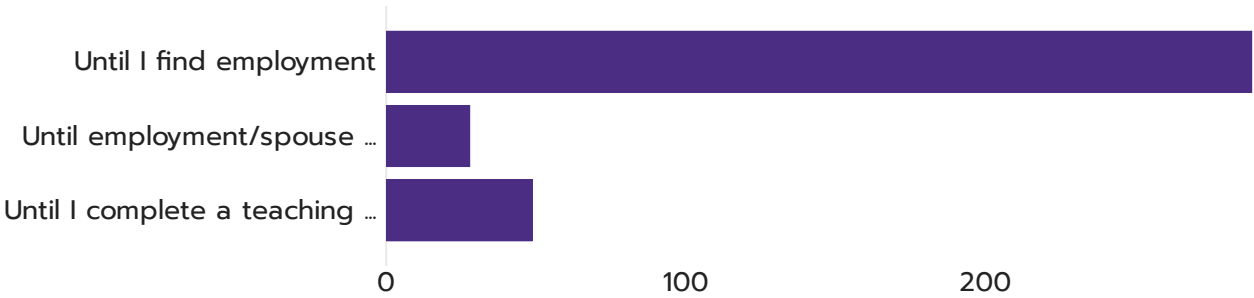

We had 1,024 responses to this survey of incoming students.
